Dear Jenny,

I am sure you are already aware of this, but your inspirational and motivational speaking style is exceptional. I want to thank you on behalf of Humphreys College for taking time out of your busy schedule to come and speak to our sophomores from the charter high school, the Institute of Business, Management, and Law.

From the feedback I received and the buzz of talk at the break after you spoke, I know you got the students thinking about their futures and the possibilities that are ahead of them. It is not a small event when outside speakers come to talk with them as you did. Being exposed to professionals is a very significant happening in their lives.

So again, thank you and good luck in all of your endeavors.

Sincerely,

Candace Blue
Director of Public Relations

Dear Jenny,

Many, many thanks for your big contribution to our Career Day at Humphreys College for the charter high school, IBML (Institute of Business, Management, and Law), seniors. I believe the students that participated enjoyed the day and were able to glean much information for their futures. In fact, as I am reading their evaluations, I know they found the information valuable.

Your insights into goal setting and your personal career development was engaging and informative. In fact, I believe your presentation was particularly entertaining and helped 'make' the students' morning. I think the personal story you told about change in career and continuing your education was very valuable.

Thanks again for your participation at our event. You positively affected the lives of young people through your presentation.

Sincerely,

Candace Blue
Director of Public Relations

Dear Jenny,

Many, many thanks for your contribution to our Career Day at Humphreys College for the charter high school, IBML (Institute of Business, Management, and Law), sophomores. The students that participated obviously enjoyed the day and were able to glean much information for their futures. Their enthusiasm for your presentation was evident throughout your "talk".

Your insights into applying for a job and your personal approach to the topic brought home the concept of respect in all aspects of their lives. Your own stories of who you are and what affects you were both entertaining and serious. Student feedback on the evaluation forms indicated that you were inspiring and that they would love to hear from you again.

Thanks again for your participation at our event. You positively affected the lives of young people through your presentation.

Sincerely,

Candace Blue
Director of Public Relations
